

Baby Room

6 weeks to 14 months

Ratio 1:3

Babies will experience a calm, gentle and soothing environment within our baby room. Qualified Staff follow each baby's routine from home and discuss any developments and progression on a daily basis with parents. Each baby has a daily diary and staff detail your baby's day so that you are involved in your baby's development at all times. Babies are nurtured and cared for by staff who provide them with lots of cuddles and tender care, playing with them, singing to them and taking them for walks in the fresh air each day.
