

Toddler Room

14-24 months

Ratio 1:3

As your baby grows and begins to toddle and walk it may be time to move to the Toddler Room. This room has a range of activities on offer and allows Toddlers to explore their environment with their newfound freedom. A nursery gym allows toddlers to explore steps, ramps, slides and tunnels whilst developing their gross motor skills. Experienced and Qualified staff observe your child's development and report back each day through your child's daily diary.
